#### NQS

Designs being refined to show to residents around end Feb/Mar. The issue of aftercare packages and security issues were raised; DOJ confirmed that these had not yet been signed off however it was not believed that there would be a delay and this work would be completed prior to the NIHE work. The residents gave their consent on the basis that an aftercare package would be in place. Assessment would be required from the PSNI.

#### Parkside

Consideration time delays were noted. DOJ advised that consideration was being given and noted the difficulties being encountered. MOP raised concerns relating to the H&S issue that had been previously raised and dismissed and the possibility that this was being used a delaying tactic.
